

# Swapnil Patel

Frontend / UI Developer

Toronto, ON • spat1342@my.centennialcollege.ca • +1 (416) 416-XXXX

• swapnil-patel-portfolio.netlify.app

## Summary

Frontend-focused developer specializing in React and Angular with a strong eye for performance, accessibility, and clean component architecture. Comfortable across the stack with Node and relational/document databases. Pragmatic about DX, testing, and CI/CD to keep delivery predictable.

## Technical Skills

- Frontend: React, Angular, TypeScript, HTML5, CSS3
- State & Tooling: Redux, Zustand, Vite, Webpack
- Testing & Quality: Jest, Cypress, Accessibility, Lighthouse
- Backend & Data: Node.js, Express, PostgreSQL, MongoDB
- Cloud & DevOps: AWS / Azure basics, Docker, CI/CD (GitHub Actions/Azure DevOps)
- Collab & Design: Git, Jira, Figma

## Selected Projects

**Retail E-commerce Platform** — Frontend Engineer | React, TypeScript, Node | 2024

- +25% faster page loads; Lighthouse 95+ on key flows
- Reusable component library and accessible patterns
- Payment & tax integrations with automated tests

**Healthcare Appointment App** — Full-stack Developer | React, Node, PostgreSQL | 2023

- Provider/patient views with availability and triage
- Audit trails and configurable retention policies
- CI/CD with automated integration tests

**Logistics Tracking Portal** — Frontend Lead | Angular, RxJS, Map SDK | 2022

- Real-time streaming updates with back-pressure friendly observables
- Granular permissions for vendors/ops/admins
- Exportable reports and SLA monitoring
